The serial numbers of the vehicle (frame, engine, carburetor) should be checked prior to ordering parts for a specific unit. In cases where a part has been modified, the serial number of the vehicle bearing the modification is listed in the 'SERIAL NUMBER' column. The modification parts are controlled by each pertinent serial number below.

**Engine serial number** - Engine group parts (Block numbers beginning with 'E').

**Carburetor identification number** - Carburetor component parts.

**Frame serial number** - Frame group parts (Block numbers beginning with 'F').

A serial number chart and serial number locations are provided.

**Note** - Some models may be controlled by one serial number only.

- AREA\*** - Applicable area code type is defined in the serial number chart.

 Function No. 77  
 Component No. 400  
 Model Code No. -634-  
 Modification Process Design 671  
 Color Code\*\* ZA

**A. Additional Information** - The section index located at the bottom of each microfiche grid lists section titles. The Engine and Frame sections have separate section indexes.

### Note:

- Rear view mirrors are standard equipment on all street legal models.

\*When columns become full, additional data is displayed on a second line.

\*\*The color code at the end of a part number indicates a color. Color codes such as ZA, ZB, ZC . . . , except ZZ, do not indicate the actual color. Actual colors are represented in code, between asterisks in the part description.

## LOCATION OF SERIAL NUMBER
